

RoomReady Set

Keep it simple,
functional
and neat.

Our **wall-mounted rack** neatly houses conference room equipment behind the display. Installation is faster and easier, and all AV components are easily accessible for servicing. The end result? *Simple, functional, and neat.*

Built Smarter

- ▶ Extremely durable, single-piece 11-gauge steel
- ▶ Can be centered on the wall regardless of stud location
- ▶ Models mount to either 2 or 3 studs

Saves Time

- ▶ Arrives on-site pre-assembled with equipment and cabling
- ▶ Ready to hang and connect to power and data

Services Easily

- ▶ Articulating mounts extend out for technicians to access equipment for servicing
- ▶ All equipment in one place — no IT closet or credenza

Costs Less

- ▶ Creates external wall backing for mounting and eliminates the need to install backing behind the wall
- ▶ Patented open design allows cooling by in-room HVAC, eliminates the need for active cooling system

Stores Equipment Neatly

- ▶ All equipment stored behind the display
- ▶ Standard models accommodate up to 6 Rack Units

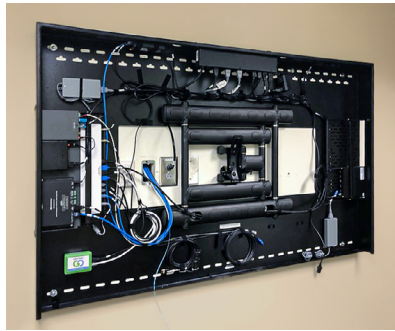

Reduces Failure

- ▶ Simple system means fewer components — so, fewer things to potentially fail

RoomReady Set delivers a simple and consistent solution to the common problem of fitting all those cables and components behind your display.

Pre-built in our assembly facility

Hung on the wall on-site

Easily serviced with the display in place

Two versions to accommodate any room situation:

Standard

For mounting above furniture or in non-egress pathways.

Slim

Can achieve ADA requirements of 4" depth with the use of certain displays. For use in egress pathways and with no furniture under the display.

MODEL	Min. Studs	Dimensions	# of Rack Units	Display Size Compatibility	Additional Required Mount(s)	Display Weight Limit
