RoomReady Set

Key Features & Benefits:

- Eliminates the costly need to run cables through ceilings and walls to an AV rack.

- Provides external wall support and eliminates the need to install internal wall backing.++

- Multiple mounting holes allow Set to be centered on the wall regardless of stud location.

- Patented open design allows cooling by in-room HVAC, eliminates the need for active cooling system.

- Articulating mounts extend out for technicians to easily access equipment for servicing.
The RoomReady Set is a wall mounted AV rack that neatly houses audiovisual equipment behind the display. The RoomReady Set makes installation faster and easier, and all AV components are easily accessible for servicing.The RoomReady Set is available in 5 sizes to accomodate various solution needs. The Standard version features six rack units, and is intended for mounting above furniture. The Slim version can achieve ADA requirements of 4" (10.16cm) depth with the use of certain displays and is intended for use in egress pathways and with no furniture under the display.
